

INSTALL-READY PALLETIZER

Schneider's Install-Ready Collaborative Palletizers deliver the production efficiency of a robotic palletizer with advanced safety sensors allowing it to operate safely alongside warehouse employees without the need for fencing. They are compact enough to fit any floorplan and the intuitive software allows for quick startup. Our collaborative palletizers are perfect for facilities that want an easy solution to optimize space, increase throughput, and improve flexibility.

USE WITH THE FOLLOWING MACHINES

- Horizontal Case Packer
- Vertical Case Packer
- Robotic Case Packer
- Semi-Automatic Stretch Wrapper

AT-A-GLANCE

- 1-in-1-out layout
- 1-in-2-out layout
- Reliable FANUC robotics
- Portable and Lightweight

Optional Wrapper

SPECIFICATIONS

- Product Types: Vacuum Pickable Products
- Maximum Payload: 30 lbs.
- Unit Load Height: 60"
- Reach: 1889 mm
- Minimum Case Dimensions: 6.5"x4.5"x4"
- Maximum Case Dimensions: 22"x16"x16"
- Power Requirements: 120v, Single Phase, 15 Amp
- Safety: Meets ANSI/PMMI B155.1 Safety Standards
